

Pathways to Cybersecurity Careers

Workshop for Teachers and Counselors

A 60 minute interactive workshop

Join us on October 21, 2020, 4PM EDT

Learn why your students should consider a career in cybersecurity.

High demand jobs, high pay, fascinating work, make a difference.

What will you learn at the workshop?

- What is cybersecurity and types of jobs in the field.
- What is the cyber skills shortage and how big is it?
- Identifying students who might like cyber careers (not just techies)
- Pathways to cyber via 4-yr or community college or the military
- How students can prepare via coursework or extracurricular activities
- Cybersecurity student support resources and scholarships

Extra resources you will get for attending:

- Free cybersecurity careers printed poster
- Access to a library of interviews with young cyber professionals
- Knowledge of tools and resources to provide cybersecurity opportunities

For any questions, please email at hello@cyberstartamerica.org
